GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2002

I. Background and Purpose

The State Elections Enforcement Commission is authorized by Section 9-7b of the Connecticut General Statutes to inspect campaign finance reports filed with the Secretary of the State as well as those filed with the Town Clerk's offices, and to audit the records of campaign treasurers.

The Commission's audit program is intended to ensure compliance with the campaign finance requirements as prescribed in Chapter 150 of the Connecticut General Statutes, inform committee treasurers of their duties and responsibilities, and provide meaningful information about campaign finance practices to the Commission.

II. Scope

The General Assembly Audit Program (GAAP) is intended to review reports filed by candidate committees established to finance campaigns for election to the General Assembly in 2002.

III. Procedure and Methodology

Selection Process

Due to inadequate staff resources and to the time constraints placed on the Commission by Public Act 03-223, only one-half of the State Senate and State House candidates for the November 2002 election were reviewed. The available pool of candidates was sorted by district: odd and even numbered districts. The last digit of the Connecticut Daily Four Number from February 27, 2004 was used to select which group would be reviewed. The number for that day was 9-4-3-5; and therefore, the candidates in the odd numbered districts were selected for review.

Each committee's registration forms and Treasurers' *Statements of Receipts and Expenditures* were reviewed at the office of the State Elections Enforcement Commission using data entered onto "File-It" or "CFIS," the two alternative database programs established by the Office of the Secretary of the State for campaign finance reports.

Review Process

The Commission's two person audit staff completed the review process of each committee. This was done in compliance with procedures in the State Elections Enforcement Commission's Audit Manual and the 2002 General Assembly Audit Program.

Candidate Reviews

197 candidates were reviewed as part of the 2002 General Assembly Audit Program out of the 374 candidates that ran for office during the 2002 General

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2002

Assembly election. All candidates appearing on a ballot associated with the September 2002 Primary or November General Election were reviewed to determine whether the required paperwork was filed. By law, each candidate must file either Form ED-49, *Registration of Candidate Committee*, or Form B-4, *Certification of Exemption from Forming a Candidate Committee*.

Committee Reviews

A total of 177 committees were reviewed in conjunction with the General Assembly election held in the year 2002. Additionally, there were 26 candidates that filed Form B-4, *Certification of Exemption from Forming a Candidate Committee*. Of those amounts, 41 were candidates for State Senator and 155 were candidates for State Representative.

The 41 senatorial candidates were all sent correspondence regarding their campaign finance filings. Thirty-four (34) candidates registered candidate committees with the Office of the Secretary of the State and each received an audit report detailing errors and violations discovered in the reporting of the committee's transactions. One candidate also established an exploratory committee and two candidates were participants in a delegate primary. Additionally, seven candidates correctly completed form B-4, *Certification of Exemption from Forming a Candidate Committee*, and these candidates received letters notifying them of the review.

The 155 state representative candidates were also all sent correspondence regarding their campaign finance filings. 136 candidates registered candidate committees with the Office of the Secretary of the State and each received an audit report detailing errors and violations discovered in the reporting of the committee's transactions. Four of these candidates also established exploratory committees, which were reviewed, and audit reports were generated in regards to their filings. Additionally, 19 candidates correctly completed form B-4, *Certification of Exemption from Forming a Candidate Committee*, and these candidates received letters notifying them of the review.

Audit Reports

Each committee that was formed for an election held in the 2002 calendar year was reviewed. A total of 177 committees received an audit report detailing errors and violations discovered in the reporting of campaign transactions.

IV. Findings

1. Access to Information

Information was easily attainable from the Secretary of the State's office which is generally obtained through its website. When additional information was needed or there were questions regarding certain campaign filings, the Secretary of the State's Elections Division staff promptly and efficiently responded to our requests.

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2002

2. Observations Involving Repository (Secretary of the State)

- a. There continues to be problems with the electronic filing CFIS system. Complete information submitted by treasurers is not always accurately reflected once transmitted through CFIS.
- b. The Office of the Secretary of the State has consistently and uniformly referred non-filers to this agency, and late-filing fees are regularly collected from treasurers as required by Section 9-333y of the Connecticut General Statutes.
- c. Campaign finance filings were appropriately date and time stamped upon receipt by the Office of the Secretary of the State.

3. Campaign Treasurers

- a. Most common errors are lack of full and proper disclosure of information:
 - Incomplete or missing contributor information, such as: name, addresses, occupation and employer.
 - Incomplete or missing expenditure information, such as: payee addresses, purpose codes and secondary payee itemization.
- b. Numerous instances in which ad booklet purchases from individuals and political committees exceeded \$50 and were not reported as contributions.
- c. Ad booklet space purchased by businesses exceeded \$250 without returning funds.
- d. Prohibited contributions account for only 1% of total receipts; approximately 69% of total prohibited contributions were from business entities.
- e. Treasurers accepted excessive contributions from individuals and political action committees and failed to return the excessive amounts.
- f. Confusion exists amongst treasurers regarding the differences between a “business entity” and “sole-proprietor” for campaign finance purposes.
- g. 89% of total “other purchases not considered contributions” consisted of improper recognition of ticket sales. The purchase of a ticket to a fundraising event is considered a contribution.
- h. There were two instances in which committees accepted funds totaling \$850 from political action committees that were recipients of surplus funds from the candidate’s 2000 campaign.
- i. Prohibited expenditures of funds:
 - Disbursements to charitable organizations before the election.
 - Surplus distributions to persons other than permissible recipients
 - Funds distributed to other candidate committees.
 - Expenditures paid with cash.
- j. Multiple instances in which itemization of candidate expenses were not disclosed as required in Section P, Campaign Expenses Paid by the Candidate.
- k. Committees generally adhered to ban on contributions by lobbyists during the legislative session. There were only 13 instances where lobbyist’s

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2002

contributions were improperly received (in which 11 were from one committee).

- l. 12 committees (7%) have not complied with the corrective action outlined in their audit report. Of that number 4 or 5 treasurers have contacted Commission staff requesting additional time to comply.
- m. Treasurers are not fully aware of their legal responsibilities when volunteering their services.
- n. Treasurers lack complete control of the use of campaign funds. Several instances in which the use of funds were influenced or directed by candidates.
- o. Some treasurers allow other individuals to have complete control over campaign transactions, such as signing checks and accepting and depositing funds, thereby failing to comply with their statutory duties.
- p. Majority of treasurers and candidates are very pleased that Commission staff has reviewed campaign finance filings and have staff contact for future questions.

4. Candidates

- a. All candidates filed required paperwork before the General Assembly election.
- b. All exemption forms were accurately completed.
- c. Candidates were all made aware, and were receptive of the reviews conducted by Commission staff.

5. Statistical Highlights

- a. 177 committees were reviewed and raised a total of \$3,982,316.18; therefore the estimated aggregate amount raised was \$7,964,632.36. (Based on one half of all General Assembly candidates reviewed, it is estimated that there were 354 committees filed and \$7,964,632.36 in funds raised for the General Assembly election.)
- b. 42 senatorial candidates raised \$1,833,958.95; Average of \$41,680.89 per candidate.
- c. 155 state representative candidates raised \$2,148,357.23; Average of \$13,511.68 per candidate.
- d. Incumbents elected in 99% of races; Incumbents raised in excess of 2.5 times the amount of money as compared to their challengers.
- e. 1 open Senate seat campaign was reviewed and the winner raised approximately 30% more than the opponent.
- f. 8 state representative open seats were reviewed; winners raised approximately 35% more than opponents, however, average amount raised by winners \$22,404.28 versus average amount raised by losers \$8,827.93 for these open seats.
- g. Highest amount raised by candidate for Senate; \$260,506.32 by candidate running for an open seat.

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2002

- h. Highest amount raised by candidate for state representative; \$55,935; Green Party Challenger (\$45,000+ was candidate's own funds); Incumbent raised \$9,189.50 and won.

V. Audit Program Comparisons

1. **Comparisons of Municipal Audit Program 1999 (MAP 99) vs. Municipal Audit Program 2001 (MAP 01) vs. General Assembly Audit Program 2000 (GAAP 00) vs. General Assembly Audit Program 2002 (GAAP 02)**

- a. The majority of all funds raised by General Assembly candidates are derived from a combination of ad book purchases and committee contributions (48%) whereas the majority of all municipal campaign funds are from individual contributions (74%):

Fund Sources:	MAP '99 &'01	GAAP '00 & '02
Individual Contributions	74%	46%
Committee Contributions	19%	34%
Ad Book Receipts	4%	14%
Other	10%	6%

2. **Comparisons of General Assembly Audit Program 2000 (GAAP 00) vs. General Assembly Audit Program 2002 (GAAP 02)**

- a. Individual contributions comprise majority of funds raised since '00
- b. Slight increase in individual and slight decrease in committee contributions as percentage of total receipts since '00.
- c. Incumbents raised 4 times more from ad book receipts than challengers.

3. **Treasurer Observations**

- a. Incorrect reporting of ticket purchases is still a problem. 89% of the total of "other purchases not considered contributions" resulted from the improper classification of ticket purchases, which is the same percentage for GAAP 2000
- b. Similar number of instances in which treasurers are making prohibited expenditures compared to GAAP 2000.
- c. Treasurers generally have shown improvement in reporting secondary payees and candidate's expenses.
- d. Treasurers are generally more responsive in complying with staff requests for corrective action.
- e. Fifty-five committees had treasurers that were treasurers in the previous General Assembly election. There was a 90% improvement in repeat treasurer's reporting of campaign transactions.
- f. Repeat treasurers tend to comply more fully with campaign finance requirements than first-time treasurers.

GENERAL ASSEMBLY AUDIT PROGRAM (GAAP) - 2002

- g. Decrease in the number of complaints by treasurers of their lack of control over committee funds. Increase in number of calls by treasurers verifying whether “candidate’s” desired use of funds is permissible.
- h. Treasurers have greatly utilized Commission staff for compliance information.

4. Candidate Observations

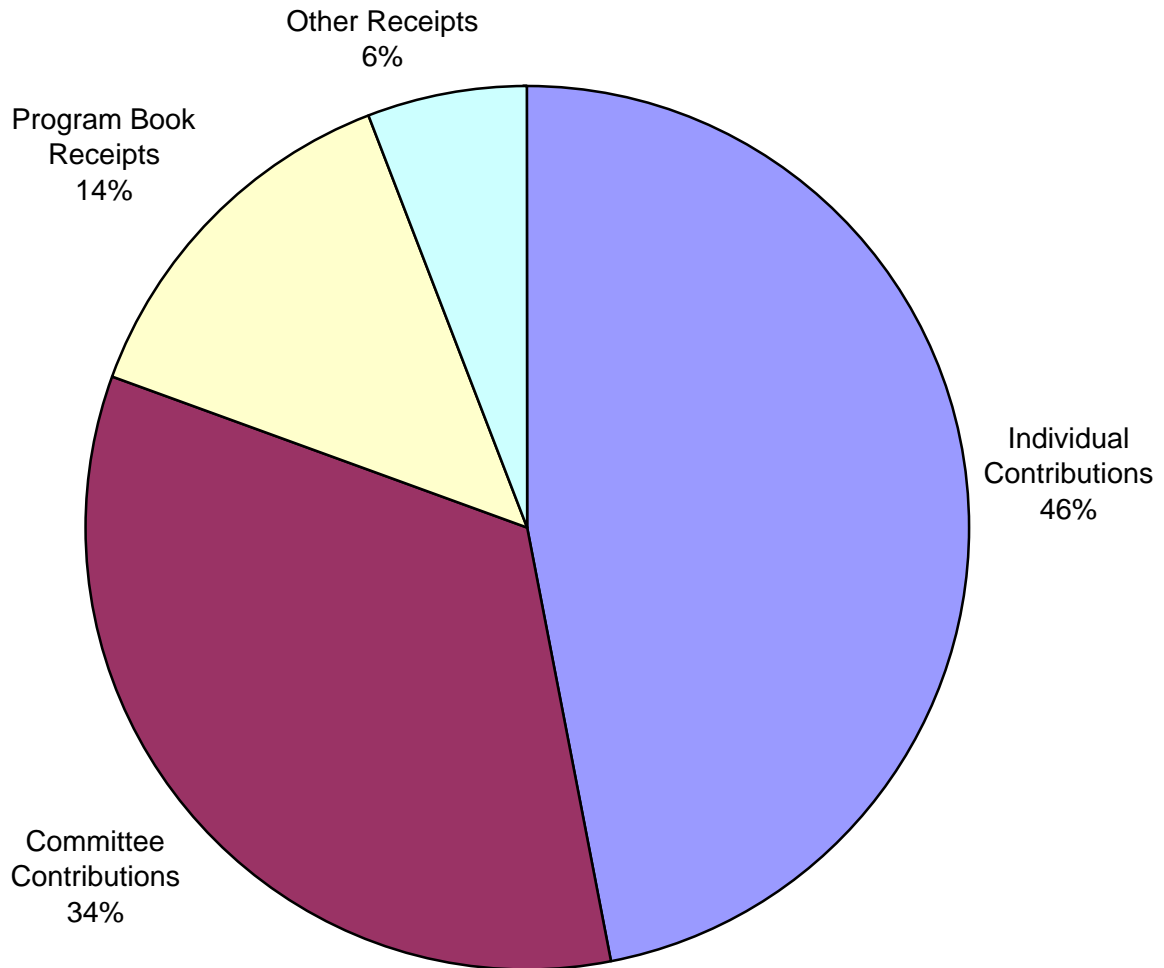

- a. Candidates have contacted staff more frequently to ask questions and seek advice before action is taken.
- b. Candidates have been more involved in ensuring compliance by their treasurers; general increase in direct contact initiated by candidate to the Commission to obtain better understanding and to report back to their treasurers.

VI. Recommendations

- 1. Treasurers must continue efforts to comply with corrective action required of them.
- 2. Repeat treasurers that fail to improve their reporting methods and continue to violate campaign finance laws will be recommended for penal sanctions in the next audit program.
- 3. Continue education and training concerning treasurer’s responsibilities and the importance of proper completion of disclosure statements.
 - Continually audit General Assembly candidates until there is a significant improvement in reporting errors and compliance levels.
 - Steps will be implemented to obtain full compliance from treasurers who are required to take corrective action.
 - Increase publicity of campaign finance seminars given by the Commission every summer.
 - Create FAQ sheet that focuses on treasurer’s weakest areas of compliance and understanding, such as:
 - 1. Definition of business entity and sole proprietor.
 - 2. Description of ad space purchases, when they are or are not considered contributions-emphasis on PAC and individual purchases. Include examples.
 - 3. Emphasis on the proper recognition of fundraiser ticket receipts.
- 4. Further improvements need to be made to the Secretary of the State’s CFIS system to ensure accuracy of date entered.
